

# RECYCLING

## HAMMER PINS

3" through 7 3/4" Diameter

Tough core made of special high alloy steel

## TIE BOLTS

2" through 7"

Completely customizable

## SEPARATOR DRUMS

Manganese or Stainless Steel

Completely customizable

## ROTOR REPLACEMENT PARTS

Side Liners  
Breaker Bars  
Cutter Bars  
Filler Bars  
Conveyor Wear Parts  
Screens & Grates  
Rotor Caps  
Roof Plates  
Hand Laid Applications

## WEAR PLATES

Tensalloy™ AR400 | AR500  
Tensamang™ Manganese  
Clif-Clad® Chromium Carbide Overlay  
Standard thicknesses  
Customizable sizing

Forging strength in scrap recycling since 1978.  
Experts crafting solutions to your needs,  
delivering unmatched quality & durability.

# RECYCLING

## DIFFERENTIATORS

- ✓ 60+ years combined industry specific experience
- ✓ Uncompromising materials for superior longevity
- ✓ Largest finished and raw on-hand inventory

## FORMING CAPABILITIES

Press Brake  
Plate Roller

## PROCESSING CAPABILITIES

CNC - Horizontal and Vertical  
CNC Plasma Cutting Tables (7)  
CNC OXY Flame Cutting  
In-House Overlay Production  
In-House Heat Treating  
Wheelabrator Media Blasting  
25 Ton Overhead Crane Capacity  
Aluminum Plate Saw  
Radial Arm Drill Presses (2)  
Bar Band Saw - up to 24" Diameter  
Laser & Waterjet Cutting  
Fabrication Services
